

SYNAPS

Network interface with built-in managed switch with fiber and Lithium LFP backup

PoE/PoE+/HiPoE (IEEE 802.3af/at/bt)

OUTDOOR

Uninterrupted videoprotection and connected city devices

The SYNAPS range enables a quick deployment of the connected objects in the city. It contains all the necessary equipment required to connect your devices and protects them efficiently against power cuts, brown outs and lightning strikes.

SYNAPS SHIELD
300 x 400 x 150 mm

SYNAPS GUARD
200 x 300 x 150 mm

Built-in functions

- ~ Guaranteed 24/7 operation of your installation
- ~ Prevents vandalism and cyberattacks
- ~ Quick and easy to install
- ~ Works with any camera you select
- ~ Seamless connection to remote monitoring systems
- ~ Low carbon 10-year life solutions

The advantages of the SYNAPS range

- ~ Contains everything you need to connect, power and protect
- ~ Protects your devices from electrical disturbances and lightning strikes
- ~ Extends the service life of your installation with automatic 1st-level maintenance
- ~ Generous space to accommodate your application devices
- ~ Power your devices and filter outages and black-outs for minutes to hours

*Extension of the manufacturer's warranty possible, contact us for details.
