

EPVIDEO

Power supply on public lighting for a permanent video protection

PoE/PoE+/HiPoE (IEEE 802.3af/at/bt)

OUTDOOR

An uninterrupted video protection on an intermittent network

The EPVIDEO range allows to quickly deploy reliable and durable video protection systems, using existing public lighting infrastructures. It ensures a 24/7 power supply and continuity of service for the equipment in case of power failure.

EPV QUATTRO
278 x 751 x 269 mm

EPV QUATTRO
with SUN SHIELD
299 x 888 x 291 mm
